

# Swedish Reform Cooperation in the Republic of Moldova

## Supported Projects 2022

The overall policy goal of Swedish Development cooperation is to create better conditions for people living in poverty and oppression. Agenda 2030, and the achieving sustainable development (social, economic and environmental), is a central element of the visions of the Swedish International Development Cooperation Agency (Sida).

Our work in Moldova followed the [Strategy for Reform Cooperation with Eastern Europe, Western Balkans and Turkey 2014-2020](#) (the strategy was extended for a year) and promoted European integration through three key areas outlined below.<sup>1</sup> The [Strategy for Sweden's Reform Cooperation with Eastern Europe 2021-2027](#) was recently adopted and will guide our work for the coming years.

1. Enhanced economic integration with the EU and development of market economy.
2. Strengthened democracy, greater respect for human rights and a more fully developed state under the rule of law.
3. A better environment, reduced climate change and enhanced resilience to environmental impact and climate change.

The following sections specify projects currently supported by Sweden in Moldova for the implementation of the strategy. In addition, Moldova is a beneficiary of several regional programmes funded by Sweden, these are

---

<sup>1</sup>This information is based on projects supported in 2021 and initiated under the three results areas of the previous reform cooperation strategy. The ongoing projects in 2022 are under review to identify how they contribute to the new reform strategy's four results areas.

The free trade agreement between Moldova and the EU (Deep and Comprehensive Free Trade Agreement – DCFTA) came into force in 2016 and has made EU's market open to Moldavian products and services, and vice versa. One of Sweden's priorities is to foster changes so that Moldova's economy can make full use of the agreement. Against this background we work to enhance the competitiveness of local companies and systematic reforms to enable increased trade with the EU.

People living in poverty, particularly in rural areas, are often the most vulnerable to the effects of climate change. Sweden works to promote increased environmental awareness and citizen engagement, while also contributing to preventing negative effects on the environment in Moldova. Apart from providing to core support to civil society organizations working with environmental issues, Sweden also supports environmental projects in Moldova together with international organization and agencies. A Climate perspective is integrated into all Sida's efforts in Moldova.

---
